larisa.kampe@gmail.com • LinkedIn • Behance • GitHub • Portfolio

PROFILE

UI/UX Designer and Frontend Developer with a graphic design background. Experienced in interface design, wireframing, prototyping, animation, and accessibility, with hands-on frontend development in HTML, CSS, JavaScript, and React.

PROFESSIONAL EXPERIENCE

Publicis Groupe, Leo Burnett — *Belgrade, Serbia*

Selected clients: *Philip Morris, Nestlé, Visa, Eurobank Direktna, Aik Bank, Doncafé, Knjaz Miloš, Aqua Viva*

Frontend Developer | UI/UX Designer — September 2025 – Present

- Act as the team's go-to resource for digital accessibility, auditing and remediating websites, presentation decks, and CRM content against WCAG 2.1 AA.
- Administered and developed on the Salesforce platform, building CRM landing pages and maintaining a daily content program — publishing and managing quizzes, awards, articles, carousels, leaderboards, and audience-specific programs.
- Designed and developed CRM emails and articles supporting ongoing engagement campaigns.
- Adapted existing presentation decks to meet accessibility standards and prepared them for JustScan development.
- Produced digital design, animation, and social media adaptations across campaign touchpoints.
- Developed responsive web applications and interactive features using HTML, CSS, JavaScript, React, GSAP, and Webflow.
- Designed user flows, wireframes, and interface solutions focused on usability, accessibility, and conversion goals.
- Partnered with multidisciplinary teams to maintain brand consistency while accelerating delivery through reusable component libraries.

Graphic Designer — January 2021 – September 2025

- Designed key visuals and full integrated campaigns for global brands, from initial concept to final execution.
- Produced point-of-sale (POS) materials, print collateral, and packaging design in line with brand guidelines.
- Designed and edited animations and videos for social media campaigns, adapting visuals and video content to multiple platforms and formats using After Effects.

FREELANCE PROJECTS

KingsLanding — Webflow Developer — *Remote • 2025*

- Designed and developed responsive websites and landing pages with a strong visual identity and intuitive navigation.
- Delivered high-fidelity mockups, reducing client revisions by 30%.
- Built reusable design components for faster, visually consistent project delivery.

GM Location and Scouting — Graphic Designer — *Belgrade, Serbia • 2022*

- Produced location scouting presentations and mood boards used directly in client pitches.

Visual Story Management — Graphic Designer — *Belgrade, Serbia • 2022*

- Designed campaign visuals, promotional graphics, and branded film assets aligned to brand voice and strategy.
